

CLIENT EVALUATION STATEMENT

I hereby attest to the following:

1. That on this day and any subsequent visit, I am here solely on my own behalf and not as an agent for any federal, provincial, or municipal agency on a mission of entrapment or investigation.
2. I fully understand that Shavone Doherty, Registered Orthomolecular Health Practitioner (ROHP) is not a medical doctor and does not offer medial diagnostic or treatment procedures.
3. If I have any existing health conditions or disease, I am not being advised to postpone or delay getting medical advice from a licensed doctor of medicine. I understand and agree that any services rendered by Shavone Doherty are not designed to cure any disease, pain, deformity, injury, or mental/physical condition of any kind.
4. The services performed by Shavone Doherty are focused on nutrition and intended for building wellness. It does not involve diagnosing, prognosticating, treatment, or prescribing remedies for the treatment of disease, for which a medical license is required.
5. Most doctors leave nutrition alone because they have not studied it in great depth. We leave diagnostics alone because we are not licensed to treat disease. I will however, offer dietary and lifestyle recommendations that will improve your bodies ability to self-regulate. If, as a consequence, your diseases should diminish, then so much the better.
6. In natural healing modalities it is not necessary to pinpoint disease processes. Healing will occur when the body is balanced and natural foods and supplements are taken in place of toxic-producing substances. It is not important to name the disease. Rather, it is much more important to provide information to obtain proper nutrition and other healthful habits.
7. This agreement is being signed voluntarily and not under duress of any kind.
